

# Iron Will

That great strength of mind and body, that exhaustless energy, that IRON WILL that make a famous merchant out of a humble clerk, a millionaire out of a penniless immigrant, a Lincoln out of a woodchopper—often come from red blood—rich in iron.

"Do you lack power of decision, energy, and stamina? Are your ambitions greater than your strength? You need not be discouraged," says Dr. James Francis Sullivan, formerly of Bellevue Hospital (Out-door Dept.), New York, and Westchester County Hospital. "By feeding the blood pure organic iron—Nuxated Iron—many a weak, run-down, discouraged man has changed to a red-blooded American, full of force and energy that win success."

Nuxated Iron is used and endorsed by former United States Senators and Members of Congress, and by such world-known men as Paderewski, Premier of Poland. It often increases strength and endurance in two weeks' time.

Treasurer Perry, in his report of Westery's Two Hundred and Fiftieth Anniversary Old Home Week, not only gives the record of the celebration, but also gives a detailed report of the expenses for each day and each department. The report follows:

Used By Over 3,000,000 People For Red Blood, Strength and Endurance.

When she dies the property reverts to other relatives of the testator who reside in Massachusetts.

He said as the old exemption expired in 1925, the tax on the land would continue at \$54,000. With this aside, he asked for ten years exemption from taxation on all new construction, to date from January, 1920.

Commander Thorpe suggested that as a matter of business it would be well for the council to see what was to be exempted before granting exemption. If no taxes are collected taxpayers will have just so much more to pay.

Councilman Moore said it was not a mistake to exempt industries for a specified period or even for all time. Large employers create business for taxation, bring people here who earn money here and spend it here.

Mr. Fowler said that if a concern was not guaranteed exemption from taxation until after building in Westery, the concern would not come. In the instance under discussion Pawtucket could be selected instead of Westery.

After further discussion, on motion of Councilman Craig it was voted that the Ninigret Mills company be exempted from taxation for a period of ten years on all new construction and machinery above the present taxable value of the land to be taken.

Another interesting chapter was then introduced by Mr. Fowler, in preparation for the annual financial town meeting to be held early next month. He said the proposition was to sell the land in Pierce street, known as Riverside park, to the Ninigret company at the price paid for the

## This year's children glint like little sunbeams!

FASHION was so busy painting their mothers and big sisters from tip to toe, that she said crossly, "I can't be bothered with children. Let them wear what they like." And were they downcast! They scampered like little pixies to all the glittering fairy tales they knew. They seized colors from goodfellow's men, from autumn leaves and the sunshine.

And now Mistress Fashion is patting them on the head! Only often they couldn't find the colors they wanted—they had taken the shops by surprise. And then came a wonderful new, good fairy scattering lovely colors everywhere she went! And so easily, that Mother could hardly believe it when she first washed a little suit into charming yellowness.

You can wash the warm bright color into every little frock and romper

SHE just washed that woolly, white Teddy Bear suit of Dicky's. She washed it with Twink—the wonderful new colored flakes—and Dicky frisked about like a little sunbeam in the snow.

Everything that ungrown-ups can wear, party frocks, stout play dresses, small son's linen blouse the sun faded so, sister's soft wool sweater—all come crowding to be made bright green, tan, yellow, blue, pink and red. And Twink is making them as merry as their little wearers.

The Twink colors make you "as if this season" in everything you wear, for the colors were

chosen with the help of this country's authorities on fabric colors. And every time the colors turn out right.

Today get two or three boxes of Twink in the colors you've been reading about and wanting. You can make every one of your blouses lovely—and once you've done it, there'll be no stopping you. Frocks, scarfs, underthings, they'll all go the radiant Twink way. And Twink won't injure any fabric pure water alone won't harm.

Get Twink at any department store, at your druggist's, or the five and ten cent stores.—Lever Bros. Co., Cambridge, Mass. (Makers of Lux.)
